*4100, will leave a voice-mail message for extension 100.

HOW TO MAKE A BLIND TRANSFER

Note: A Blind Transfer is a transfer to another extension without actually initiating a call to the end destination. The call is blindly transferred to the destination. By comparison, an attended transfer is a transfer where before actually transferring to the destination, the call is put on hold and another call is initiated to confirm whether the end destination actually wants to take the call or not. These two calls are then merged together.

BLIND TRANSFER METHOD

- Press the "Answer" soft key to answer an incoming call.

- Press the "Trnsfr" soft key. Enter the extension number of the person you would like to transfer the call to.
- Press the "Blind" soft key and dial the extension number of the person you would like to transfer the call to. Press the "Dial" button to complete the transfer.

ATTENDED TRANSFER METHOD

- Press the "Answer" soft key to answer an incoming call.

- Press the "Trnsfr" soft key to start the attended transfer procedure. This will automatically put the caller on hold.
- Press the "Normal" soft key and dial the extension number of the person you would like to transfer the call to. Press the "Dial" button.
- The transfer recipient answers and accepts to take the call.
- Press the "Trnsfr" soft key to complete the transfer.
- The two calls are now merged.

TIP: You can also press the line key at the top left of the above screenshot to inform the caller that you are about transfer the call to the end destination.
